## Paving and Patio cleaning - the experts

How times change. Many years ago if you wanted to get your paving cleaned it was a case of throwing a bucket of soapy water on the paving and scrubbing in for all your worth with a broom. Back breaking work and very indifferent results.

Then came an electric jet washer with its pencil jet which only cleaned a line at a time and took forever to do. This also caused so much splashback and dirt all over you and the surrounding areas it took just as long to clean up after yourself leaving you thinking "I am not doing that job again in a hurry!"

Nowadays Spinaclean offers the luxury of their Slip Stream Pro patio and driveway cleaning systems. Equipped with the most robust Honda engines and powerful flat surface cleaners, they are the ultimate combination for the patio and driveway cleaning professional. The surface cleaner has a rotary arm underneath which spins at great velocity rapidly removing the dirt and keeps all the waste matter under

control on the floor not all you or the surrounding areas. It's as easy as mowing the lawn.

With over fifty years' combined first-hand experience in the industry, Spinaclean are the true paving and patio cleaning experts. Our extensive range of machines have been modified to suit a wide range of domestic and commercial cleaning requirements and budgets.

Our ever popular 'Industry workhorse' Pro20 system, is demonstrated at our Training Day's at our Northampton HQ. Running for over ten years' our hands on Training Days have been designed to teach sole traders everything they need to know about setting up an external business, offering services including patio and paving cleaning, external gutter cleaning and professional window cleaning.

Alternatively, our doors are always open at our Northampton HQ for a no obligation demonstration and chat with our demo team, whether starting a business from scratch or seeking an additional profitable revenue stream.

"What I like about Spinaclean is they don't just sell the equipment they have the knowledge to go with it and are always at the end of the phone to give any guidance."

*Will Fox, Fox's Pure Clean*
