

skyVac

Bacuum

High-level back pack vacuum

Portable & versatile cleaning for challenging locations. This comfortable and lightweight back-pack vacuum is ideal for lifts and stairwells, or for projects with tight seating such as public transport and cinemas or theatres. Whilst the telescopic pole puts beams and ledges up to (28ft) in easy reach.

Available as Mains / Battery powered and in Four Height Packages.

Cordless Vacuum System:

- Portable & Comfortable
- Wearer experience is at the forefront of the clever design- with everything you need within easy reach, with this Backpack Vacuum.
- In addition to padded straps, the cannister sits away from the operators back, to allow air to circulate. This prevents heat build-up, and improves comfort for long periods of cleaning.
- Fully padded and ergonomically designed shoulder & waist straps, as well as chest strap. All adjustable for a customised fit.
- Built up padding for extra comfort against the wearers back. Two separate shoulder, and one lower back pads.
- Power housing can be clipped around the waist for easy on / off access.
- Accessories clip to the side of the drum

IDEAL FOR:

Internal cleaning, specifically narrow entrances, venues, stadiums, churches, theatres. High-level cleaning for high and low areas.
